Attendance

Does your school struggle with taking student attendance consistently?

Would you be able to accurately account for every student during the school day?

Trinity- Attendance assists schools to manage, monitor, and communicate attendance for their students quickly and easily.

- ✓ Increased consistency of attendance taking among faculty
- ✓ Assists with monitoring attendance levels and ensures that acceptable levels of attendance are established and maintained
- ✓ Increased accurate snapshot of real time attendance
- ✓ Check in/Check out procedures
- ✓ Immediate notification to parents when a student is absent or late
- ✓ Consistent communication between faculty and parents
- ✓ Automated notifications to teachers and administrators to ensure attendance is being entered consistently

"I love this system! Great for parents like me who have a child driving - and driving a sibling to school! I leave before the kids, so I didn't know they were leaving so late.

Thanks again for implementing this system." - Sydney Maxwell
