

The rise in school violence cannot be ignored, but you can be prepared.

US SCHOOL SHOOTINGS

Trinity Tracking Software ensures rapid accountability during a crisis situation.

Key Crisis Management Features:

- ✓ Initiate a crisis - Fire, Missing Person, Threat, Disturbance, Medical, Intruder, Accident, Shooter - and recommend a response based on severity.
- ✓ Update user status and location - Safe, Injured, Missing, In Lockdown, In Danger, Not Reported - with immediate parent notification upon update.
- ✓ Immediate text alert to all users upon Crisis initiation, plus immediate call to 911 in case of a critical crisis.
- ✓ View last known location of Missing and Not Reported students.
- ✓ View instructions on how to respond based on integrated school safety plans.
- ✓ Use of RFID technology and mobile readers allows for rapid accountability in real time.

We can't prevent violence from occurring, but we can be there when in need.

Anonymous Reporting Feature:

- ✓ Enables anyone to reach out for help and report bullying, contemplation of suicide, domestic abuse, or suspicious/criminal school activity.
